

SOF NSO Science — Topic Deep-Dive: Human Body

For Ambar, Class III CBSE

1. Major organs and their jobs

Inside our body are special parts called **organs**. Each organ does one important job.

Organ	Its job
Heart	Pumps blood to every part of the body
Lungs	Help us breathe (take in air)
Brain	Helps us think, remember and control the body
Stomach	Digests the food we eat
Bones (skeleton)	Give the body shape and support
Muscles	Help the body to move

The **heart** never stops — it beats faster when we run. The **lungs** take in air when we breathe. The **brain** is the “boss” of the body and is protected by the hard **skull** bones. The **skeleton** is the full framework of bones; muscles pull on bones to make us move.

2. The five sense organs

We learn about the world through **five sense organs**.

Sense organ	Sense	What it does
Eyes	Sight	See light, colour and things
Ears	Hearing	Hear sounds
Nose	Smell	Smell good and bad things
Tongue	Taste	Taste sweet, salty, sour, bitter
Skin	Touch	Feel heat, cold, pain, pressure

Skin is the **largest** sense organ — it covers the whole body. The **tongue** also helps us to speak. When you have a cold, your **nose** is blocked, so you cannot smell your food.

3. Teeth

Teeth help us **bite and chew** food so the stomach can digest it easily. - Our first set is called **milk teeth**; they fall out and are replaced by **permanent teeth**. - We should **brush twice a day** (morning and night). - Eating too many sweets and not brushing causes **tooth decay (cavities)**.

4. Safety and first aid basics

Small accidents happen. Simple first aid helps:

Small injury	First aid
Small cut	Clean it and cover it with a bandage
Small burn	Put it under clean, cool water

Nosebleed

Sit down, pinch the nose gently

A **first-aid box** keeps bandages, cotton and antiseptic (a germ-killing liquid). We should not play with fire, sharp knives or electric sockets.

5. Hygiene habits (keeping clean)

Good habits keep germs away and keep us healthy: - **Bathe daily** and wear clean clothes. - **Wash hands with soap** before eating and after using the toilet. - **Brush teeth twice** a day. - **Cut nails** regularly. - **Cover mouth** with a tissue or elbow while coughing or sneezing. - Drink **clean water** and eat fresh food.

These habits stop germs and protect us from many diseases.

Common traps

The trap	The truth
"The heart helps us breathe"	The lungs help us breathe; the heart pumps blood
"The stomach helps us think"	The brain thinks; the stomach digests food
"We have three sense organs"	We have five sense organs
"We taste with our nose"	We taste with the tongue ; smell with the nose
"Brush teeth once a day is enough"	Brush twice a day
"For a cut, rub mud on it"	Clean it and cover it ; never use mud

High-frequency question types

1. **Organ-job match:** "Which organ pumps blood?" → Heart.
 2. **Sense organ:** "Which sense organ helps us smell?" → Nose.
 3. **Analogy:** "Eyes : See :: Ears : ____" → Hear.
 4. **Hygiene:** "How many times should we brush?" → Twice.
 5. **First aid:** "First aid for a small cut is ____" → clean and cover.
 6. **Which uses many organs:** eating a fruit uses eyes, nose, tongue, teeth, stomach.
-

Key facts checklist

- ☐ Heart pumps blood; lungs help breathe.
 - ☐ Brain helps us think; stomach digests food.
 - ☐ Bones give shape; muscles help move.
 - ☐ Five sense organs: eyes, ears, nose, tongue, skin.
 - ☐ Skin is the largest sense organ.
 - ☐ Brush teeth twice a day.
 - ☐ Milk teeth are replaced by permanent teeth.
 - ☐ Wash hands before eating; bathe daily.
 - ☐ For a small cut: clean and cover it.
-

Quick drill (10 questions)

1. Which organ pumps blood?
2. Which organ helps us to breathe?
3. Which organ helps us to think?
4. Where is food digested?
5. How many sense organs do we have?

6. Which sense organ helps us to hear?
7. Which is the largest sense organ?
8. How many times a day should we brush our teeth?
9. What should we do before eating food?
10. What is the first aid for a small cut?

Answers: 1. Heart 2. Lungs 3. Brain 4. Stomach 5. Five 6. Ears 7. Skin 8. Twice 9. Wash our hands 10. Clean it and cover it
